

Data sheet: LN-406

Product code : LN-406
 Product name : Internet Security Camera
 EAN code : 8716502019762

This Wired Internet Security Camera is ideal for remote monitoring of various spaces at home (baby's bedroom or your living room) or the office (reception area or warehouse). By connecting the camera to your wired network, you can access the live images recorded by the camera from any desktop PC or notebook via the Internet or Intranet. All you need is a web browser and an IP address. With the camera you can keep an eye on your home or office at any time from any location.
